DETAILED ACTION

This is the third office action for U.S. Application 10/800,712 for a Self-Drying Condensate Pad for Beverage and Food Service filed on March 16, 2004.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 2 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant claims "a third-layer wicking barrier means of a mid-portion size, including a piece of coated fabric, whereby absorbed moisture is forced to move in a radial direction. However, the specification and drawings fail to disclose how this function is achieved and it is not clear what causes the moisture to move in a radial direction when it is absorbed.

Allowable Subject Matter

Claim 2, as best understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
